 Garland S. Sydnor, Jr.

CLASS OF 1949

Harold C. Bjerke
 Frederick J. Howden

Stan H. Loomis
 George A. Ouelette

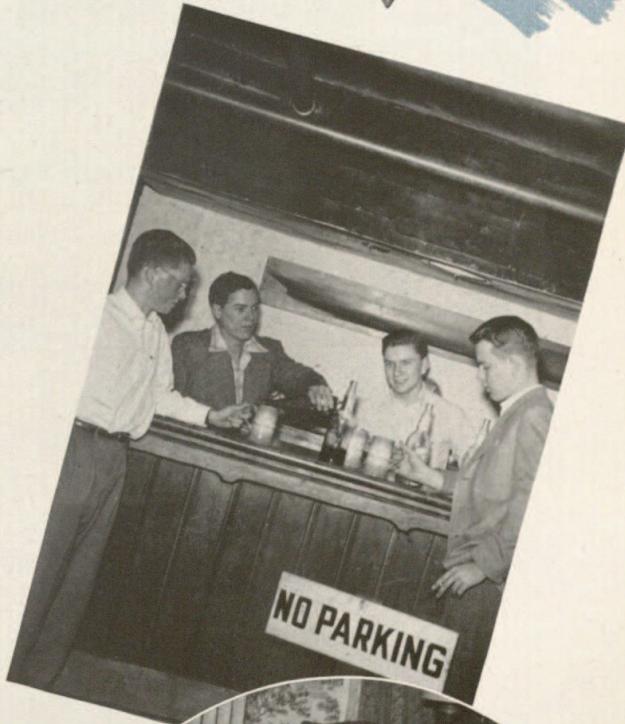

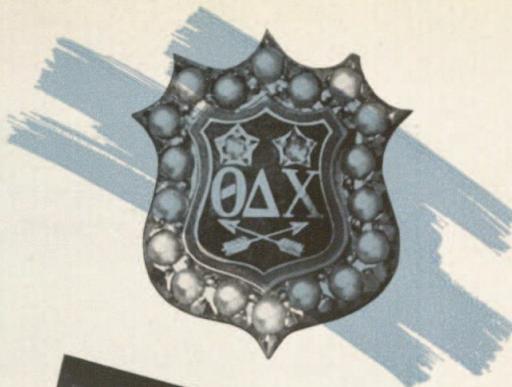

John R. Saxe
 Richard E. Stoll

Theta Delta Chi

In the past eight months, the active membership of Theta Deuteron has swelled to almost pre-war heights, and the ever growing flow of returning veterans promises that by fall we may number well above thirty.

Many memorable events of the fall and Spring term will go down in Theta Deuteron's history. Almost weekly parties of one form or another were held at the house. Needless to say, "wine, women, and song" were usually the themes. Brothers Loomis and Ouellette have consistently amazed and horrified us with their dates. Almost traditional are: Saxe's weekly trips to Watertown; 9:00 dates from Katy Gibbs; and the continual sobriety of "bachelors" King and Zwemer. "314" would not seem itself without the perpetual bridge game, the crew men late for dinner and "meatball" Maack annihilating Nairn in working up an appetite. However, all has not been gay, for we are still mourning the loss of our cat and goldfish.

With the coming of warm weather, we are looking forward to our life with even more anticipation than before. There is no doubt that 1946 will be a milestone in our history.

Any port in a storm
No razors or knives allowed
Stress and strain
