Santa and his crew...   ...at the annual Christmas Party

A policy discouraging impulsive expansion has been maintained by Theta Delta Chi since its founding in 1847, so that there are now twenty-nine charges. Theta Deuteron charge at Tech was established in 1890 and has occupied its present house at 314 Memorial Drive since 1930.

The house is doing extremely well from many standpoints this year, setting an impressive record of achievements to be aspired to in later years.

Dinner is more important than the photographer

Our departing seniors leave behind an admirable list of activities. There were two men on the *Voo Doo* senior board, one man on the sailing team, and two captains of Tech's track and basketball teams.

The house as a whole is well represented in Institute sports such as track, basketball, soccer, sailing, fencing, rifle, crew, skiing, and golf. The activities are also represented, including Tech Show, Institute Committee, *Voo Doo*, Course VI student-faculty committee, and the honorary activities; Beaver Key, Chi Epsilon, and Quadrangle Club.

Socially the year was very successful. Our annual pledge dance attracted some three hundred couples during the course of the evening. The customary Saturday night parties were kept lively by our home-style guitarist and pianist and by enthusiastic if not melodious brothers. The house received for the third straight year a subsidization from the I.F.C. for its always-successful old-clothes party, the Out-house Orgy. A new high in solidarity of spirit was shown at our departing president's bachelor party in February.
